

PORT OF BROOKINGS HARBOR
Special Commission Meeting
Tuesday, February 26, 2019 • 3:00 pm
Port Conference Room Suite 202
16350 Lower Harbor Road, OR 97415

TENTATIVE AGENDA

1. CALL MEETING TO ORDER

- Pledge of Allegiance
- Roll Call
- Introduction of Guests and Port Staff
- Modifications, Additions, and Changes to the Agenda
- Declaration of Potential Conflicts of Interest

2. APPROVAL OF AGENDA

3. PUBLIC COMMENTS (Limited to a maximum of three minutes per person. A “Public Comment Request”, located near the entrance, must be completed and turned into the Chair prior to the beginning of the meeting.)

4. ACTION ITEMS

	Page #
A. INFRA Grant Application.....	1
B. Port Infrastructure Repair List.....	3
C. Procurement Request – Golf Cart.....	148
D. Piling Project Change Order.....	165

5. INFORMATION ITEMS

A. DEQ 1200-Z Permit.....	199
---------------------------	-----

6. NEXT REGULAR MEETING DATE – March 19, 2019, 6:00 pm

7. ADJOURNMENT

ACTION ITEM – A

DATE: February 26, 2019
RE: INFRA Grant Application
TO: Board of Commissioners
ISSUED BY: Gary Dehlinger, Port Manager

OVERVIEW

- INFRA Grant (Infrastructure for Rebuilding America Program) provides Federal financial assistance to highway and freight projects of national or regional significance.
- Four key objectives:
 - 1) Supporting economic vitality at national and regional level;
 - 2) Leveraging Federal funding to attract non-Federal sources of infrastructure;
 - 3) Deploying innovative technology, encouraging innovative approaches to project delivery, and incentivizing the use of innovative financing; and
 - 4) Holding grant recipients accountable for their performance.
- INFRA Grant smallest project size is \$8,333,333.33. INFRA will provide 60% or \$5 million and the other \$3.3 million comes from the recipient.
- INFRA Grant project must be completed in 3 years. Awards occur typically in August 2019.
- Port receiving \$600,000 from State this year and must use the funds by 2022.
- Funding Opportunities for Project Size of \$8,333,333.33 example:

Grants / Other	Dollar Amount	Amount Remaining	
INFRA Grant	\$5,000,000	\$3,333,333.33	
State Lottery Fund 2017	\$600,000	\$2,733,333.33	
Port Funds 2019-2022*	\$500,000	\$2,233,333.33	
State Lottery Fund 2020*	\$500,000	\$1,733,333.33	
SPWF* (IFA Forgivable Loan)	\$1,000,000	\$733,333.33	
Curry County Road Fund Loan*	\$733,333.33	\$0	
- OR -			
State Lottery Fund 2022*	\$733,333.33	\$0	

* Funding not secured.

- Port Projects under INFRA Grant would include and potential order of construction (construction can be completed throughout the three-year period):
 - 1) Fuel-Receiving Dock
 - 2) Bandon Pacific Dock
 - 3) BC Dock
 - 4) Hallmark Dock

- 5) Gear Storage, Parking and Connecting Roads (Stormwater & Paving Development)
 - 6) Boat Yard Paving
 - 7) Travel Lift Ramp and Work Dock Reconstruction
 - 8) Green Building Development (optional)
 - 9) Green Building Demolition and Land Development (optional)
- If the Port does not receive INFRA Grant award, the Port will pursue Natural Hazard Mitigation Plan, Pre-Disaster Mitigation (FEMA) Grant 2020 for the dock reconstruction using the \$600,000 State Lottery Funding for matching.
 - Other funding possibilities could include Special Public Works Fund, Business Oregon Grant – Forgivable Loan (SPWF). If the construction project is completed the loan is forgiven. Curry County Road Department loan with low interest payments.
 - INFRA Grant application is still in development and expected to be completed by end of this week or day of 26th meeting. March 4 is the grant application deadline.
 - Port will continue looking for other grant opportunities.

DOCUMENTS

- INFRA Grant Application (may not be available until day of meeting).

COMMISSIONERS ACTION

- **Recommended Motion:**
Motion to accept INFRA Grant application and construction projects within the grant and Port funding requirements, if the Port is awarded the INFRA Grant.

ACTION ITEM – B

DATE: February 26, 2019
RE: Port Infrastructure Repair List
TO: Board of Commissioners
ISSUED BY: Gary Dehlinger, Port Manager and Travis Webster, Harbormaster

OVERVIEW

- Board meeting on December 8, 2016 was the first review of Port infrastructure repair needs. Damage list was provided to the Board and priorities were placed and actions were taken. Port Counsel provided Discretionary Immunity Clause explanation at the beginning of the meeting.
- Board meeting on July 18, 2017 was the second review of Port infrastructure repair needs and priorities were revised. Since this meeting, there has been no further updates to the Port infrastructure repair list other than the modified Strategic Business Plan, Table-14 Capital Improvements Plan 2019 annual update during December 2018 meeting.
- POBH Draft Damage Infrastructure and Repair List, February 2019 Updated List is the current Port conditions with the priorities and funding set in July 2017. Removed completed or in-process projects from the list. Kept the Issue # the same, so you can track it from the 2017 list. Some options were changed with new ideas for repairs or construction. Funds available column was not updated, funding for these repairs/replacements should be reviewed.
- Further breakdown of each area (some with pictures) should be used to determine the new priority and available funding with Port staff recommendations.

DOCUMENTS

- December 8, 2016 Meeting Minutes, 4 pages
- December 9, 2016 News Article, 1 page
- Damage Infrastructure and Repair List, Last Commission Update 2017, 19 pages
- Approved Strategic Business Plan, Table-14 Capital Improvement Plan, 2 pages
- Draft Damage Infrastructure and Repair List, February 2019 Updated List, 5 pages
- Damage Infrastructure and Repair, Detailed Items List, 111 pages

COMMISSIONERS ACTION

- **Recommended Motion:**
Review each item on Draft Damage Infrastructure and Repair List, February 2019 Updated List to decide priority level, action to be taken, with or without funding.

Port of Brookings Harbor / Regular Meeting
December 8, 2016

1. CALL TO ORDER AND ROLL CALL

The Special Meeting of the Port of Brookings Harbor Board of Commissioners was held on December 8, 2016 in the Port of Brookings Harbor Office, Harbor, Oregon. Chairman Roy Davis called the meeting to order at 3:00pm. Other Commissioners present were Roger Thompson, & Sharon Hartung. Vice Chairman Sue Gold and Treasure Tim Patterson were absent. Also present was Port manager Gary Dehlinger.

2. DISCUSSION ITEMS

- a. **Port Maintenance and Infrastructure Cost Repairs:** Lawyer Jim Coffey called to talk to the Board of Commissioners and let them ask any questions that they may have regarding the Discretionary Immunity Clause, which a copy of the memo was given to the Board. Comm. Thompson asked Mr. Coffey; so as long as there is signage were we have problems, that legal posting correct? The Board was told that what they need to be doing is warning the public of areas that may cause injury. You need to put out caution signs telling the public whatever they are using they are using at their own risk. This is the first step in establishing the Discretionary Immunity, for not being able to repair the conditions that you know need to be repaired. In most situations when things need repair you would go out, identify the problem and fix it. I believe that right now you don't have the significant funds to hire a contractor for all of these 13-20 million dollars worth of repairs. What you need to do is discuss openly in an open session, the various conditions and talk about what the available funding may be for the repairs, talk about any other factors what might affect the repairs. Then the Commission can decide on what is high priority and what you can handle. These decisions are going to help your insurance in defending potential injury or property damage claims. For individual Commissions who are concerned about liability and your own personal liability you are acting as a Port Commission subject to Oregon Tort Claims Act. SDAO is going to provide you with legal council to defend any claims that are brought to the Port and could jeopardize the Port, will be rendered against them. What you're doing in this exercise is protecting the Port and assisting your defense council if there was an injury. There were no further questions for Mr. Coffey. Mr. Dehlinger wanted the Board to understand there is no significance behind his numbering system and what financial situation the Port is in. We roughly have \$40,000 in the general fund, and \$55,000 in our loan fund that we cannot touch. Just so the Board understands back in the tsunami, the Governor postponed those payments; well we are still obligated to pay those. IFA is applying the current payments to the latest ones; we are paying off 2014-2015 loans. They look at statutory dates which don't move, they said they gave us a grace period but they didn't because by law they can't move the statutory dates. That is why Don Mann and I are going to the State to see what can be done. Chairman Davis wanted to clarify with Mr. Dehlinger that right now we have less than \$100,000 in accounts and we can only touch \$40,000. Chairman Davis wanted Mr. Dehlinger to tell the Board and public what it takes to keep the doors open. Mr. Dehlinger stated that we have to spend \$149,000 dollars each month including loan payments, electric, insurance, everything but payroll. If we turn the lights off we would save \$200,000 a year. Which the ice house takes up about half of that, we are trying to get a better rate with Coos Curry Electric. The Board agreed to do a numbering system (1 threw 5) to give each item a priority number.

Port of Brookings Harbor / Regular Meeting
December 8, 2016

1. Item 1: Boat Launch Ramp damage due to the surge, waves, and the wind. OSMB is working on a grant to replace them next year, at least that's the goal. Usually with the grants, we must be matching, whether it be labor, and right now we are looking at \$690,000 to replace those. There are signs up showing slippery when wet, what is happening is the flotation material is coming out, they don't float, and the hinges break. Marine Board states that we just need to replace them with aluminum ramps. Comm. Thompson asked if there is anything to do before the season starts? Gary says we don't want to shut them down but we might be able to put an inflatable bag or something to make it float again. The Board would like for there to be signs showing caution of tripping. The Board wanted to add tripping signs up and set this as a number 1 priority for the port.
2. Item 2, 3, & 4 are about the same, 2 & 3 are about the sport basin E dock and the pilings are coming out. This would be a FEMA project, so they would cover 75%, but we have to come up with 25% of the funds. Comm. Thompson asked and that's the reconfiguration of the docks. Mr. Dehlinger replied yes, and there are 3 scenarios that can come into play. FEMA might say they are not going to cover mitigation work. FEMA might just only fix the pilings that are the worst, it's their discretion to tell us what they are going to fix or not. Jack Akin thinks FEMA will cover the \$474,238, that's 41 pilings. I did ask for Jack Akins recommendation, and he thinks there needs to be 130 pilings fixed (which is a million-dollar project), which we would have to pay 25% of, I did turn that in because I might as well ask for everything, which the Board agreed upon. Now it is just waiting on FEMA to see what they are willing to do. C Dock is also in the same condition. The Board told Mr. Dehlinger to post a sign at the top of the ramp showing tripping hazard and paint tripping hazards, which we have already painted all tripping hazards. Item 4 is he dredging or moving the docks.
3. Item 5: Fuel Dock slope and ramp failing. Causing the concrete to separate which the fuel lines are attached to the ramp. Rock slope protection is failing from surge action and rain fall. The slope is falling causing the ramp embedment to move which contains the fuel lines, sewage line and water lines. Steel plate was placed over the gap between the concrete ramp sections. If no action is taken to repair the slope, the risk is ruptured lines.
4. Item 6: Drain line became plugged during the recent storms and a section was broken while unclogging the line.
5. Item 7: Rock slope protection is failing from surge action and rain fall. The slope is falling causing additional spoils to enter the harbor. Some sections along the walk path have become a fall hazard. Continued sloughing will impact the walkway, parking lot and utilities.
6. Item 8: Docks along the west side are hitting bottom at low tide causing damage to the docks and creating tripping hazards causing life, health and safety concerns. Dredging area approximately 500'x40'x6' deep = 4,444 cubic yards. \$17.87 per cubic yard plus mobilization and demob estimated at \$50,000. \$25 per cubic yard disposal.
7. Item 9: Deposits from the County storm drain has caused a navigation hazard and impacting the travel lift access. Dredging area approximately 70'x90'x10' deep = 2,333 cubic yards. \$17.87 per cubic yard plus mobilization and demob estimated at \$50,000. \$25 per cubic yard disposal.

Port of Brookings Harbor / Regular Meeting
December 8, 2016

8. Item 10: A void has developed under the concrete approach to the travel lift ramp from storm water. Pile cross bracing has been damaged and should be repaired. Slopes along the boat yard are sloughing off from rain runoff and tide action.
9. Item 11: Sinkhole has developed at the Fishing Pier parking lot due to subsurface water flows, subgrade and rain fall on the surface.
10. Item 12: Reconstruct Commercial Dock (Hallmark): Commercial dock has deteriorated over the years.
11. Item 13: Reconstruct Commercial Dock (Bandon Pacific): Commercial dock has deteriorated over the years.
12. Item 14: Reconstruct Commercial Dock (BC Fisheries): Commercial dock has deteriorated over the years.
13. Item 15: Reconstruct Commercial Dock (Ice House): Commercial dock has deteriorated over the years. Slopes along the edge are failing. Approximately 500 feet of slope repair at \$1,288/ft.
14. Item 16: Main Retail Sewer Holding Tank: Sewer holding tank is allowing water intrusion from the enclosure and ground water. Sewer pumps are worn out.
15. Item 17: Water Intrusion into Zola's Sewer System: Ground or storm water is entering the sewer system from Zola's sewer drain line. Location of water intrusion has not been found.
16. Item 18: Mainbrace Sewer Holding Tank: Sewer holding tank is allowing water intrusion from the enclosure. Sewer pump is worn out.
17. Item 19: Slugs N Stones Sewer Holding Tank: Sewer holding tank is allowing water intrusion from the enclosure. Sewer pump is worn out.
18. Item 20: Chetco Seafood Sewer Holding Tank: Sewer holding tank is allowing water intrusion from the enclosure.
19. Item 21: RV Park Sewer Dump Out Relocation: Sewer dump out is allowing water intrusion when severe storms and high tides occur and the waves break over the parking lot.
20. Item 22: Repair Boardwalk Shoring and Deck Boards: North side of the boardwalk has moved away from the concrete abutment due to shoring giving away under the boardwalk.
21. Item 23: Ice House and Cold Storage require separation to operate safely and most energy efficient manner.
22. Item 24: Fish Cleaning Station Drainage: DEQ has instructed the Port to stop draining any chemicals into the Chetco River.
23. Item 25: All Port vehicles are almost 20 years old and require extensive repair costs to bring them to good operating conditions.
24. Item 26: Department of Health cited the RV Park for rough picnic benches that could cause splinters. Most benches are worn out and would not be worth just repairing the top.
25. Item 27: Potholes in asphalt and gravel areas throughout the Port properties.
26. Item 28: Port Tenant Building (Zola's): Flooding occurs when it rains, main waterline had to be rerouted because it broke somewhere under the slab. The roof and windows need replaced. Storage for the business is not adequate. The building is earmarked for demo per the Strategic Plan.
27. Item 29: Port Building (RV Park Laundromat): Building has dry rot throughout. Electrical infrastructure needs to be replaced. Roof leaks and should be replaced.

Port of Brookings Harbor / Regular Meeting
December 8, 2016

28. Item 30: Port Building (Warehouse/Shop): Roof leaks and floods during rain storms.
29. Item 31: Numerous repairs are needed throughout Dock N thru Q and including transient docks. See attached inspection report.
30. Item 32: Numerous repairs are needed throughout Dock C thru J and including work dock. See attached inspection report.
31. Item 33: Numerous repairs are needed throughout Dock A thru H, Crab and Transient Docks. See attached inspection report.
32. Item 34: Aluminum Ramps to Beach: Hinges broke on the both ramps. Some issues with the step off end of the ramps when sand is washed away.
33. Item 35: Green Building and the land surrounding it has lost potential revenue over the past 12 years. Using current gear storage rates the Port has lost approximately \$433,000 in the 12 years. The site is still under construction even though no construction activity is currently going on.

3. ADJOURNMENT

Brookings port officials set priority list for repairs

By Jayati Ramakrishnan
Pilot staff writer

Port of Brookings Harbor officials have started prioritizing various repairs and purchases — and trying to figure out how they will fund those projects.

Port attorney Jim Coffey was present via phone to discuss with the board how to establish discretionary immunity through these projects — protecting the port from potential infrastructure liabilities on its property.

At a meeting Thursday, Port Manager Gary Dehlinger outlined 35 maintenance and infrastructure tasks the port needs to complete. They include repairing or replacing launch ramps, purchasing a work truck, repairing sport and commercial docks, and repairing sewer systems.

For some tasks, the port will find temporary solutions — such as putting up warning signs on failing docks — until it can find the funds to make repairs. For others, the port will prioritize major repairs.

The biggest hurdle for the port is its financial situation.

"We're sitting at less than \$100,000 in accounts and we can't touch \$55,000 of that. So we have \$40,000 to make all these repairs."

— Roy Davis, chair of the Port of Brookings Harbor board of directors

Dehlinger broke down the port's assets and liabilities.

In its accounts, the port has roughly \$40,000 in the general fund, and another \$55,000 in its loan fund — which can only be used for loans.

"We're sitting at less than \$100,000 in accounts, and we can't touch \$55,000 of that," said Board Chair Roy Davis. "So we have \$40,000 to make all these repairs."

The port has been financially strapped as it works to pay off debts it incurred prior to 2009. It has been working with the Infrastructure Finance Authority, a state-run entity that lends money to ports, cities and counties for infrastructure projects.

The port currently pays \$62,500 every quarter to the IFA — \$250,000 a year — and \$190,000 toward a loan from USDA each year.

It costs \$110,000 per month to keep the port functioning, and another \$35,000 for payroll.

The port is also trying to catch up on loan payments it missed after the 2011 tsunami, for which payments were postponed but never waived.

Dehlinger said for some of the projects, he will seek grants — TIGER grant (federal), grants from ConnectOregon and the Oregon State Marine Board (state) and general obligation bonds.

"In an ideal world, the port would identify and make all these repairs," Coffey said. "But you've got a list of things — it's a pretty good chunk of change — \$20 million at the most. What you need to do — in as many open sessions as you need — is to talk about the various conditions and what the available funding may be for repairs to these condi-

tions."

Coffey advised commissioners to prioritize the infrastructure problems that pose physical dangers to the public and port employees.

Commissioners reviewed each of the 35 issues presented by Dehlinger, considering potential and temporary solutions for the problems.

Some of the projects commissioners marked as "first priority" were repairs to the boat launch ramp, Sport Basin Dock E and other sport basin pilings, separating the ice house and cold storage, and fixing sewer issues for several port businesses as well as the main retail sewer line.

They also prioritized repairs to the commercial basin slopes that are in disrepair, and installing drainage for the travel lift ramp before the new lift arrives.

Brookings seeks residents for public art committee

The city of Brookings is seeking applicants for its Public Art Committee.

Interested applicants can pick up an application at the city hall payment counter

ings, from 9 a.m. to noon and 1 to 4:30 p.m., Monday through Friday, and online at <http://www.brookings.or.us>, under "Forms & Guidelines."

The Public Art Com-

second Wednesday of each month at 4 p.m. at city hall. Positions are filled by city council vote upon recommendation by the mayor.

1103. To learn more about this and other city volunteer opportunities, visit the Volunteer Opportunities page on the city's website at www.brookings.or.us.

FUEL DOCK RAMP FAILURE

Issue #	CIP Rank	Description of Condition	Priority	Option 1	Estimated Cost	Option 2	Estimated Cost	Option 3	Estimated Cost	Funds Available Y/N
5	1	Fuel dock slope failing causing the concrete ramp to separate. Fuel lines are attached to the ramp.	1	Remove and rebuild slope with proper rock slope protection	400,000	Build new dock pier style to include Commercial Hoist, remove ramp and existing fuel dock system, new fuel system on the dock	800,000	Build new dock with sheet pile system to include Hoist and fueling system	1,000,000	No

Port Staff Recommendation:

Option 3 will provide the best natural disaster resiliency protection and normal longevity.

Option 2 or 3 Possible Funding Source:

- 1) INFRA Grant
- 2) 2017 State Connect Oregon Lottery
- 3) Port General Fund
- 4) Business Oregon Loan - Special Public Works Fund or County Road Fund Loan

Option 1 Possible Funding Source:

- 1) Port General Fund
- 2) FEMA PDM 2020
- 3) Business Oregon Loan - Special Public Works Fund or County Road Fund Loan

Temporary measures Port has taken to reduce environmental and safety issues:

- 1) Breakaway valves installed on fuel lines.
- 2) Ramp closed for employee and public use.
- 3) Ramp relocated from failing embankment.
- 4) Fuel lines getting rerouted as soon as possible per emergency Resolution No. 500

BASIN 1 & 2 – SLOPES FAILURES (Not Basin 2 West Side)

Issue #	CIP Rank	Description of Condition	Priority	Option 1	Estimated Cost	Option 2	Estimated Cost	Option 3	Estimated Cost	Funds Available Y/N
6	10	East side slope failures (multiple areas)	5	Repair entire east side slopes with H-pile and concrete shoring design, expand Basin	1,500,000 Repair isolated areas	300,000				No

Port Staff Recommendation:

Option 1 will provide the best natural disaster resiliency protection and normal longevity.

Option 1 Possible Funding Source:

- 1) Port General Fund
- 2) FEMA PDM 2020
- 3) Business Oregon Loan - Special Public Works Fund or County Road Fund Loan
- 4) State Lottery Fund 2021 (2023)

Option 2 Possible Funding Source:

- 1) Port General Fund
- 2) FEMA PDM 2020
- 3) Business Oregon Loan - Special Public Works Fund or County Road Fund Loan
- 4) State Lottery Fund 2021 (2023)

Temporary measures Port has taken to reduce environmental and safety issues:

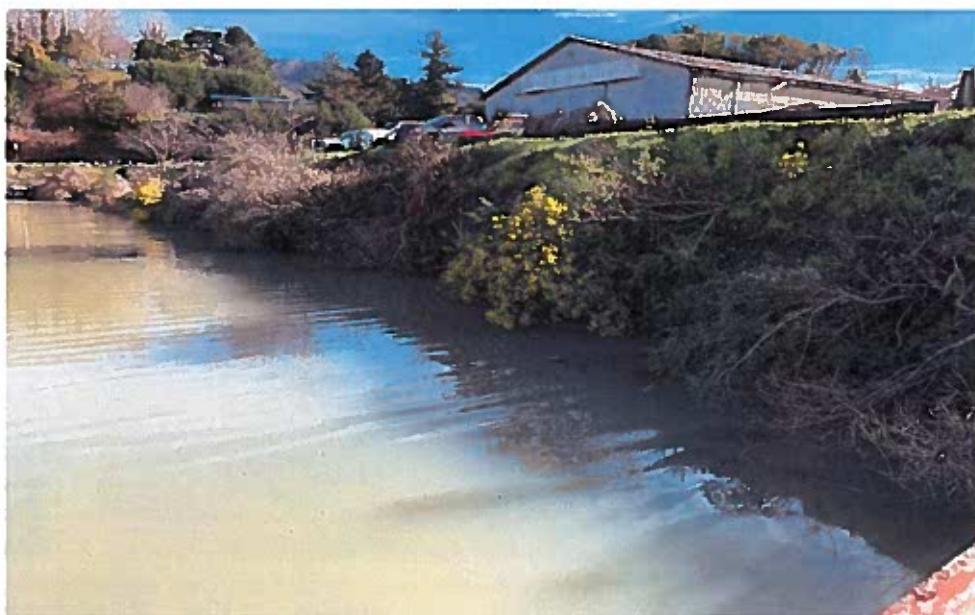

- 1) None

5

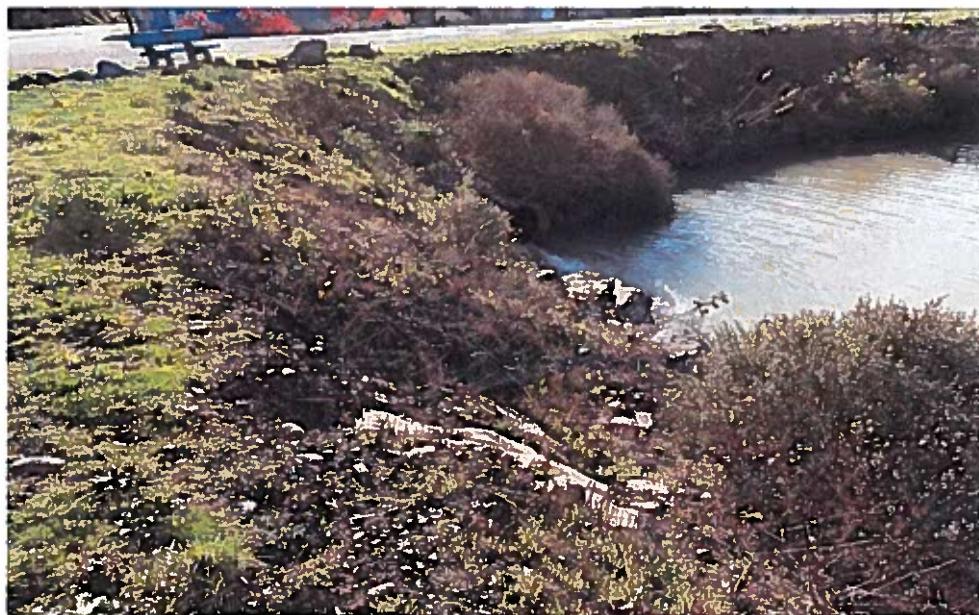

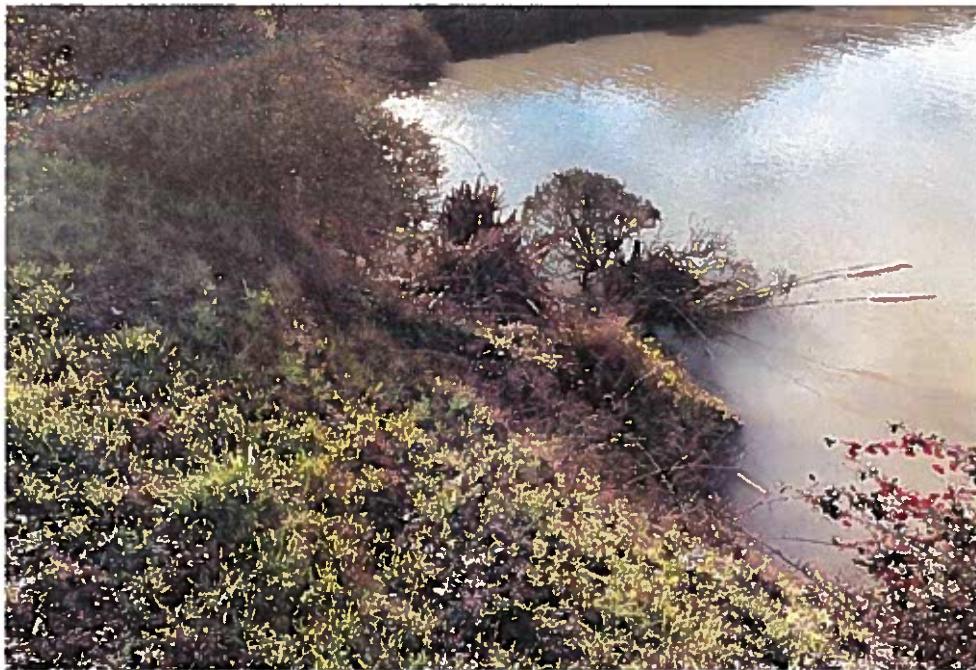

January 22, 2019

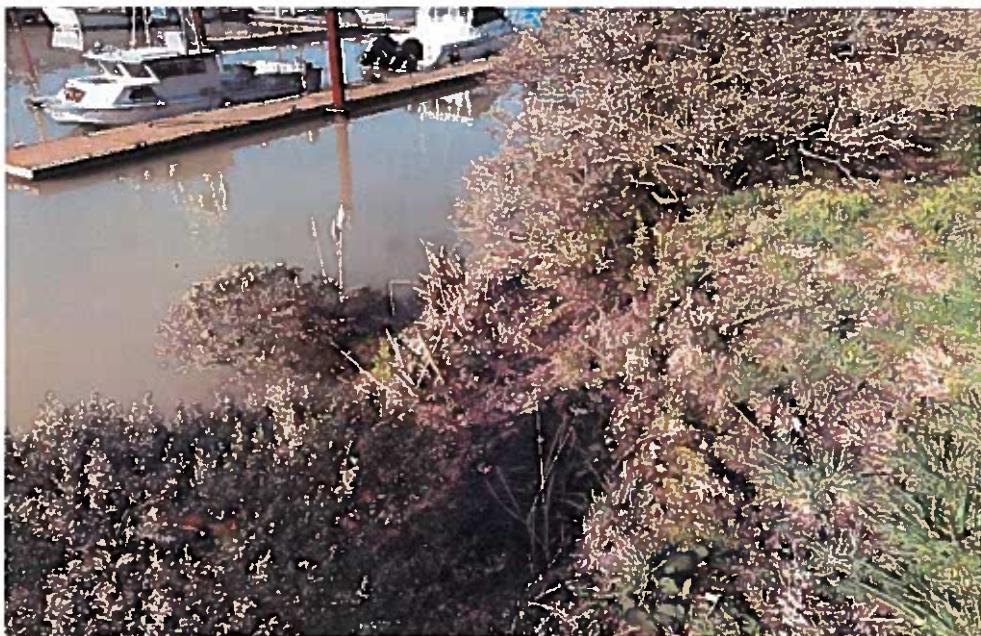

Basin 2 slope failures.

Boatyard slopes

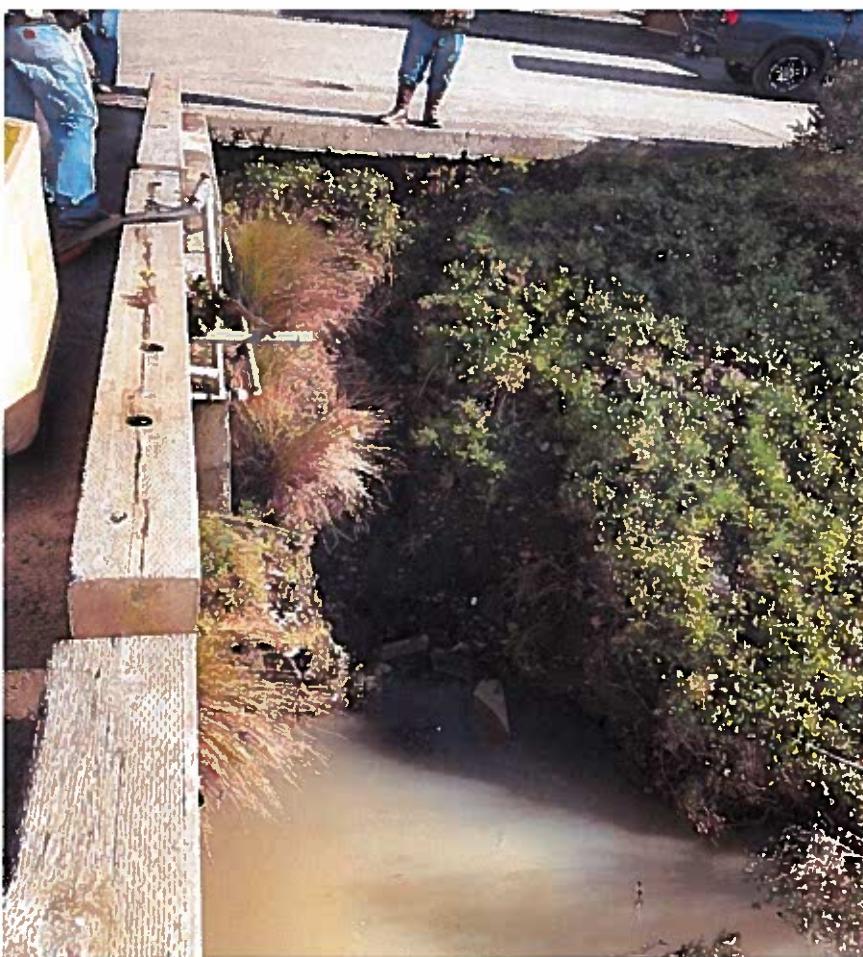

East slope near Boatyard.

Slope south side of Hallmark dock.

Slope north of Hallmark – next to fishnet reel.

BASIN 2 - WEST SLOPES FAILURES

Issue #	CIP Rank	Description of Condition	Priority	Option 1	Estimated Cost	Option 2	Estimated Cost	Option 3	Estimated Cost	Funds Available Y/N
7	5	Commercial Basin slopes failing will cause damage to adjacent parking and infrastructure	1	Remove and rebuild 1,000 ft slope with H-pile and concrete sections shoring design	1,500,000	Repair isolated areas	500,000			No

Port Staff Recommendation:

Option 1 will provide the best natural disaster resiliency protection and normal longevity.

Option 1 Possible Funding Source:

- 1) Port General Fund
- 2) FEMA PDM 2020
- 3) Business Oregon Loan - Special Public Works Fund or County Road Fund Loan
- 4) State Lottery Fund 2021 (2023)

Option 2 Possible Funding Source:

- 1) Port General Fund
- 2) FEMA PDM 2020
- 3) Business Oregon Loan - Special Public Works Fund or County Road Fund Loan
- 4) State Lottery Fund 2021 (2023)

Temporary measures Port has taken to reduce environmental and safety issues:

- 1) Protective fencing installed at failed slope locations.

48

50

January 22, 2019

Basin 2 West Side Slope. Slope failure continues to occur along the entire length of the basin. Pictures begin from the south end of the basin continuing north. At low tide, C Dock hits bottom. Extreme low tides other main dock areas hit bottom.

FISHING PIER PARKING LOT

Issue #	CIP Rank	Description of Condition	Priority	Option 1	Estimated Cost	Option 2	Estimated Cost	Option 3	Estimated Cost	Funds Available Y/N
11	14	Fishing Pier subgrade failing causing sinkholes	1	Remove asphalt and subgrade, repair subgrade and repaved parking lot to drain properly	150,000					No
		Board meeting 02-26-2019 Decision								

Port Staff Recommendation:

Option 1

Option 1 Possible Funding Source:

- 1) Port General Fund
- 2) FEMA PDM 2020
- 3) Business Oregon Loan - Special Public Works Fund or County Road Fund Loan
- 4) State Lottery Fund 2021 (2023)

Temporary measures Port has taken to reduce environmental and safety issues:

- 1) Fencing, barricades and signs installed to protect public from sinkholes.

69

69

January 22, 2019

Fishing Pier parking lot. Potholes created by subgrade failures. Mostly caused by jetty rock under the surface and soil lost due to river / ocean flows. Large void under the surface where the fence is located and voids developing at the barricades.

PORT OF BROOKINGS HARBOR

REBUILD COMMERCIAL RECEIVING DOCK - HALLMARK

Issue #	CIP Rank	Description of Condition	Priority	Option 1	Estimated Cost	Option 2	Estimated Cost	Option 3	Estimated Cost	Funds Available Y/N
12	9	Commercial receiving docks broken (Hallmark)	2	151 feet of dock replaced pier type	2,265,000	Sheet pile type	2,000,000			No
		Board meeting 02-26-2019 Decision								

Port Staff Recommendation:

Option 2 will provide the best natural disaster resiliency protection and normal longevity.

Option 1 or 2 Possible Funding Source:

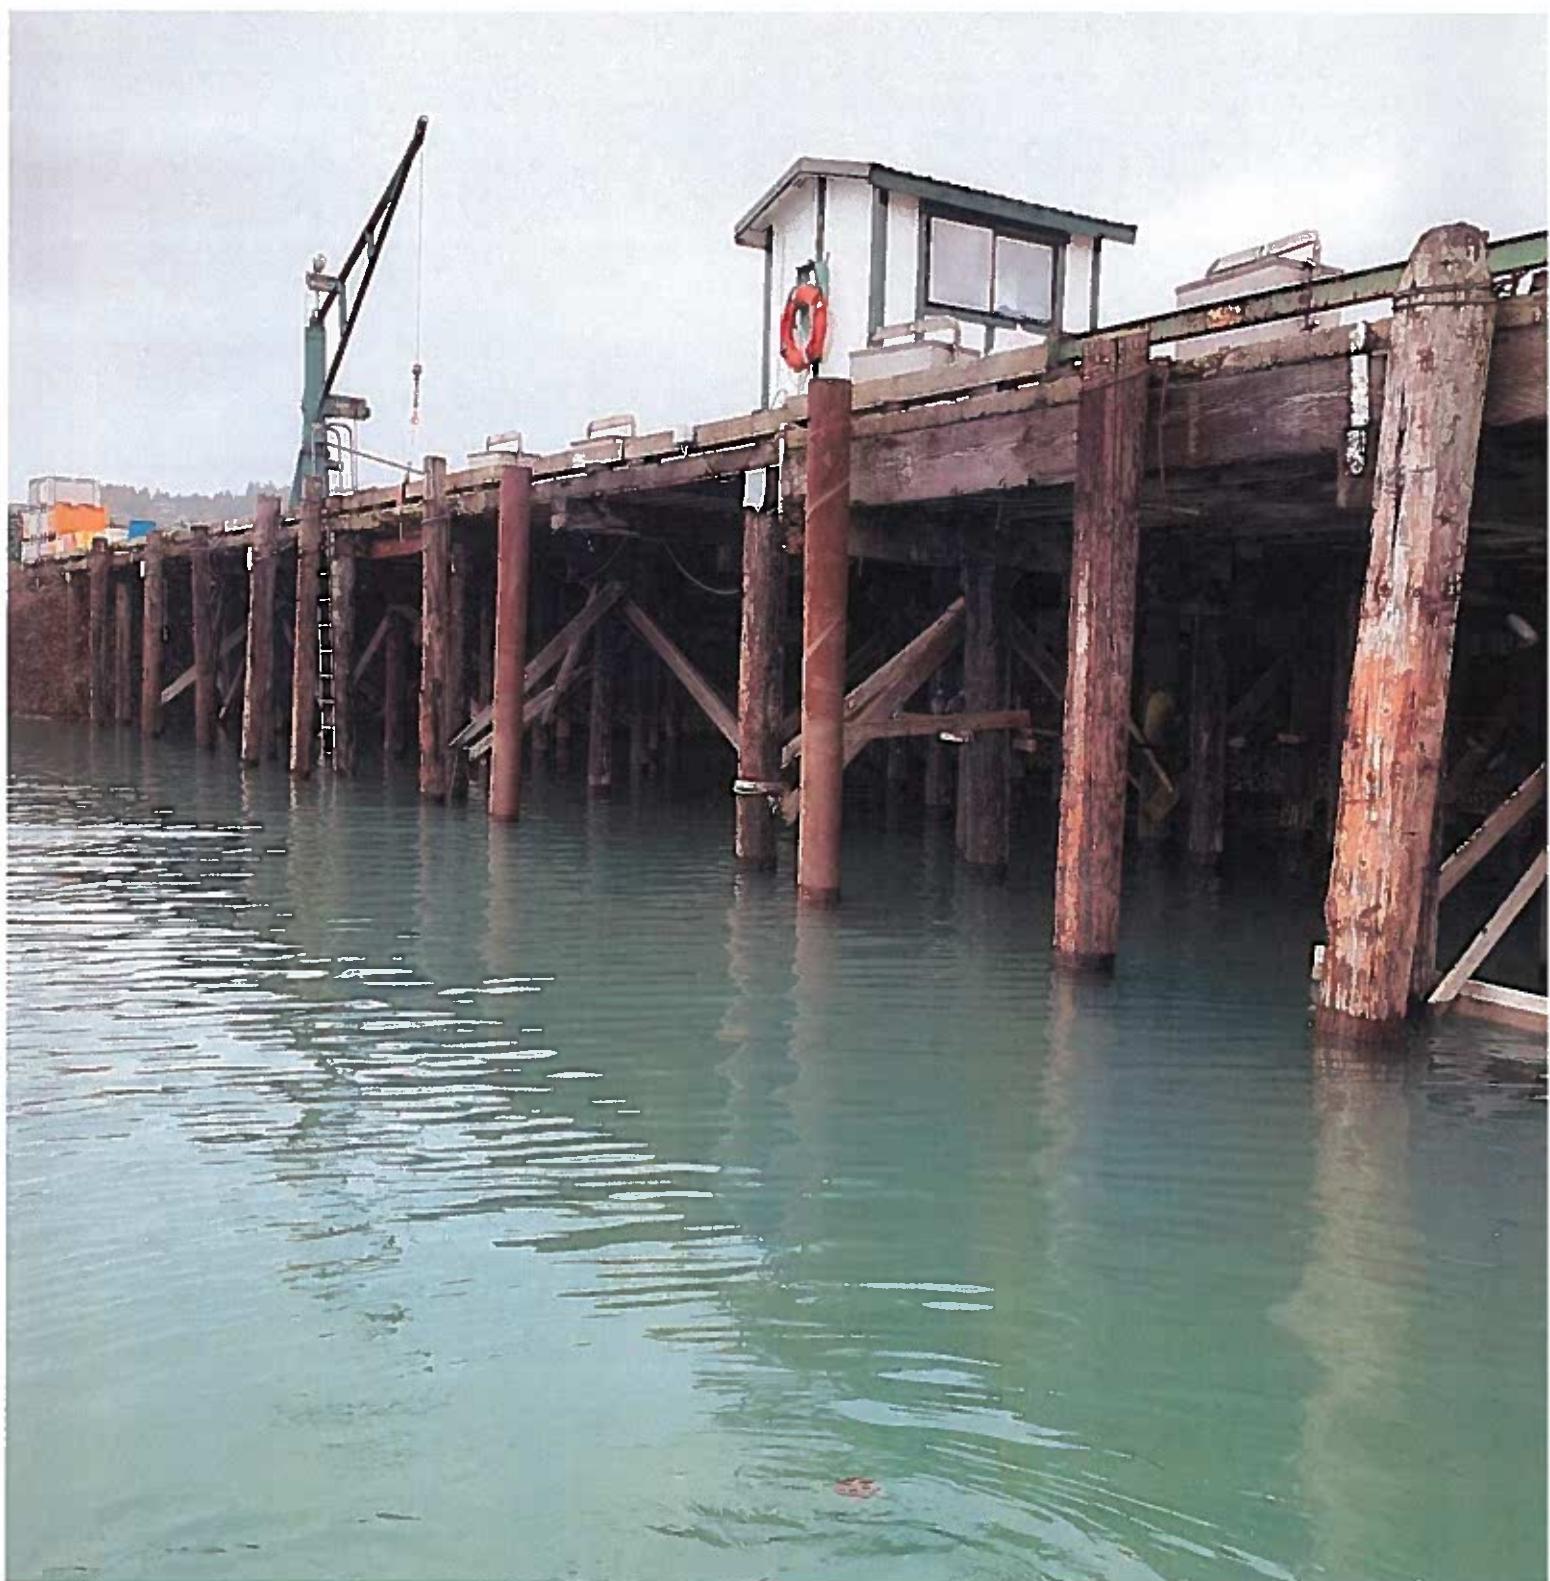

- 1) INFRA Grant
- 2) 2017 State Connect Oregon Lottery
- 3) Port General Fund
- 4) Business Oregon Loan - Special Public Works Fund or County Road Fund Loan

Temporary measures Port has taken to reduce environmental and safety issues:

- 1) None

71

71

PORT OF BROOKINGS HARBOR

REBUILD COMMERCIAL RECEIVING DOCK - BANDON PACIFIC

Issue #	CIP Rank	Description of Condition	Priority	Option 1	Estimated Cost	Option 2	Estimated Cost	Option 3	Estimated Cost	Funds Available Y/N
13	2	Commercial receiving docks broken (Bandon Pacific)	1	100 ft of dock replaced, cantilever type	1,500,000	100 ft Pier type of dock	800,000	Sheet pile type	1,000,000	No
Board meeting 02-26-2019 Decision										

Port Staff Recommendation:

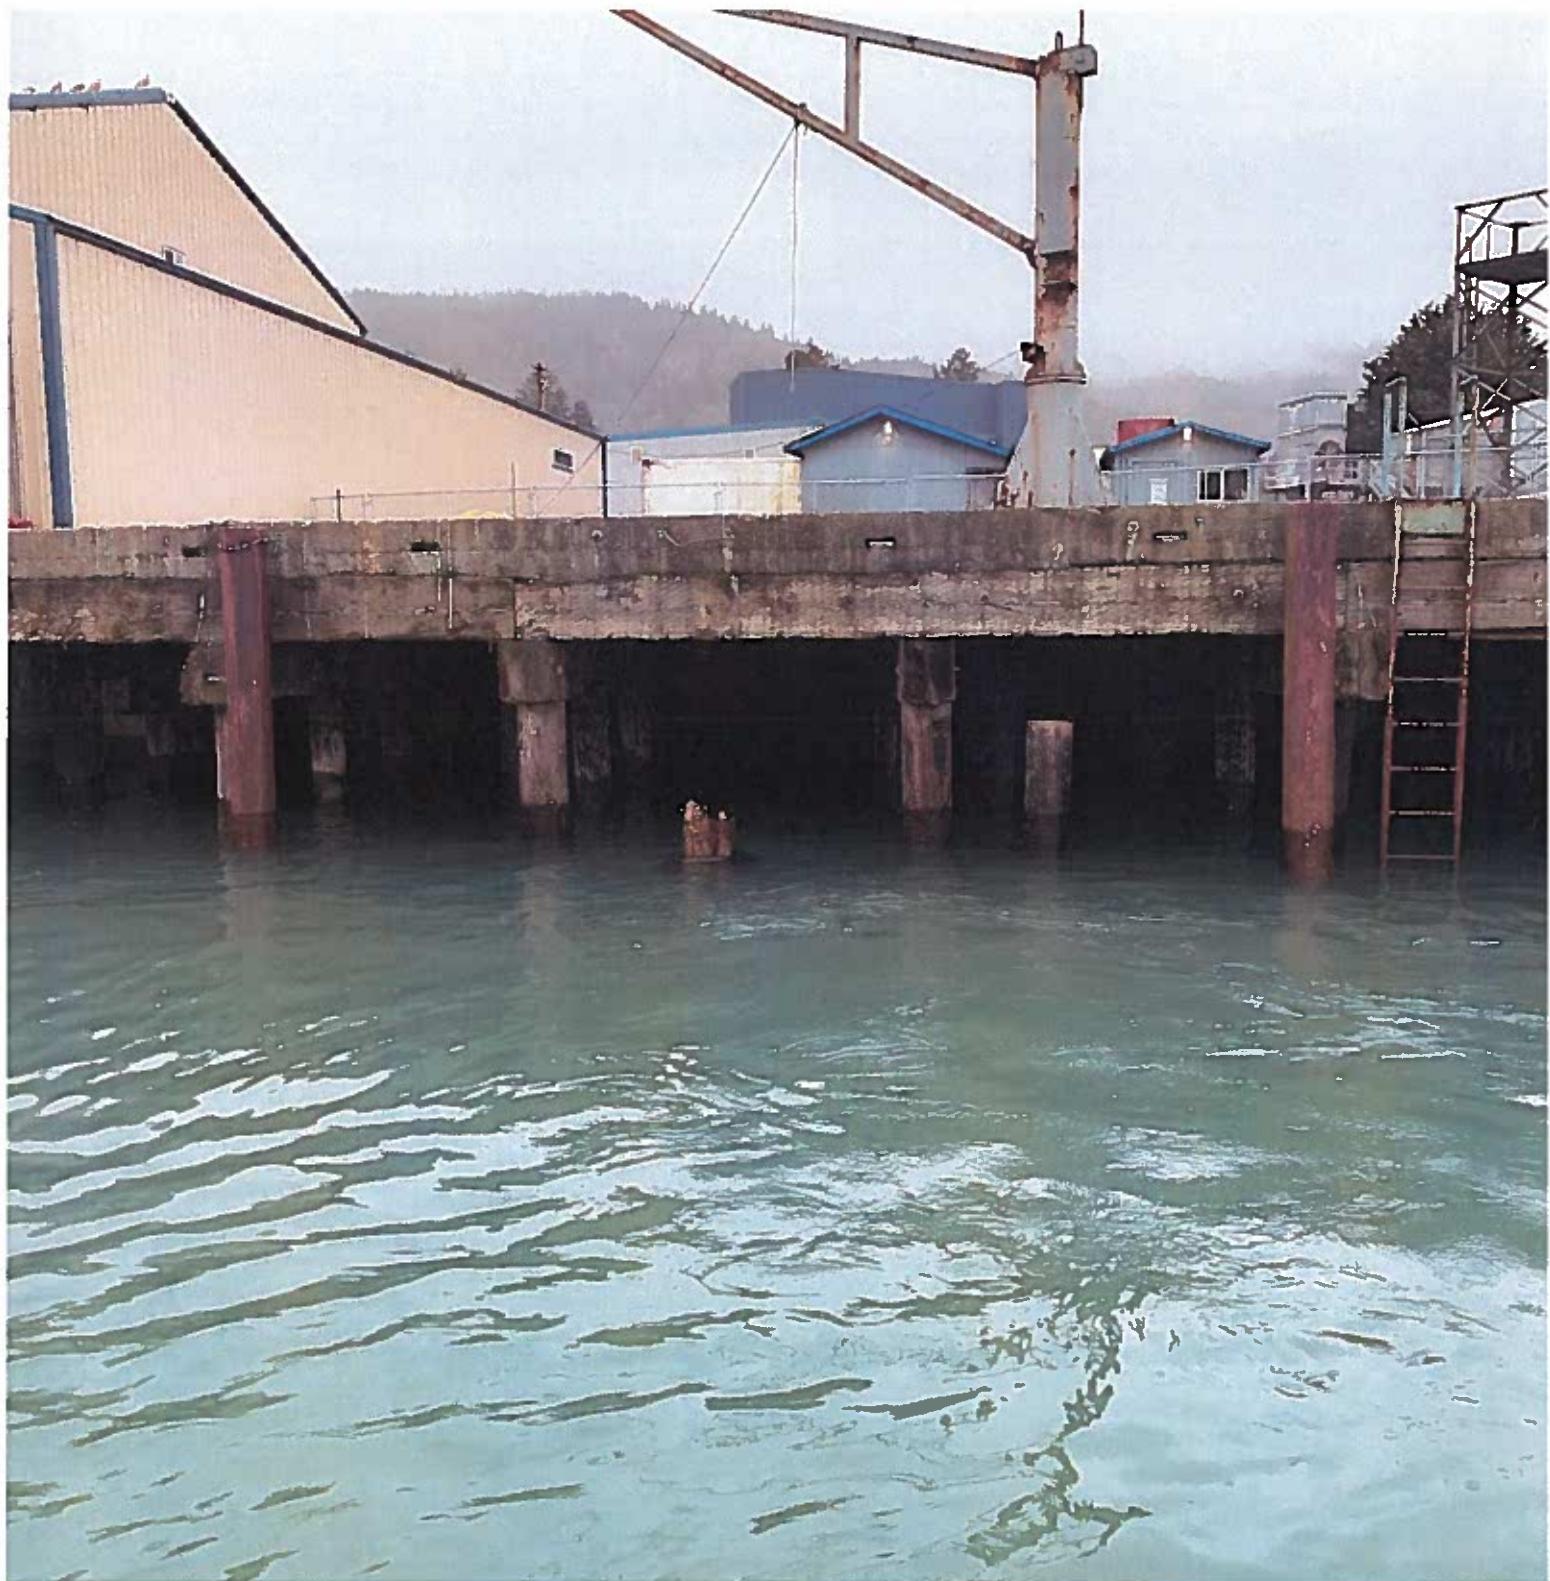

Option 3 will provide the best natural disaster resiliency protection and normal longevity.

Option 1, 2 or 3 Possible Funding Source:

- 1) INFRA Grant
- 2) 2017 State Connect Oregon Lottery
- 3) Port General Fund
- 4) Business Oregon Loan - Special Public Works Fund or County Road Fund Loan

Temporary measures Port has taken to reduce environmental and safety issues:

- 1) Receiving dock area fenced to prevent use.

PORT OF BROOKINGS HARBOR

REBUILD COMMERCIAL RECEIVING DOCK - OLD BC FISHERIES

Issue #	CIP Rank	Description of Condition	Priority	Option 1	Estimated Cost	Option 2	Estimated Cost	Option 3	Estimated Cost	Funds Available Y/N
14	2	Commercial receiving docks broken (BC Fisheries)	2	100 ft of dock replaced, cantilever type	1,500,000	50 ft Pier type of dock, remove 50 ft of dock and other piles and repair slopes	500,000	Sheet pile type following Option 2 rebuilding	1,000,000	No
		Board meeting 02-26-2019 Decision								

Port Staff Recommendation:

Option 3 will provide the best natural disaster resiliency protection and normal longevity.

Option 1, 2 or 3 Possible Funding Source:

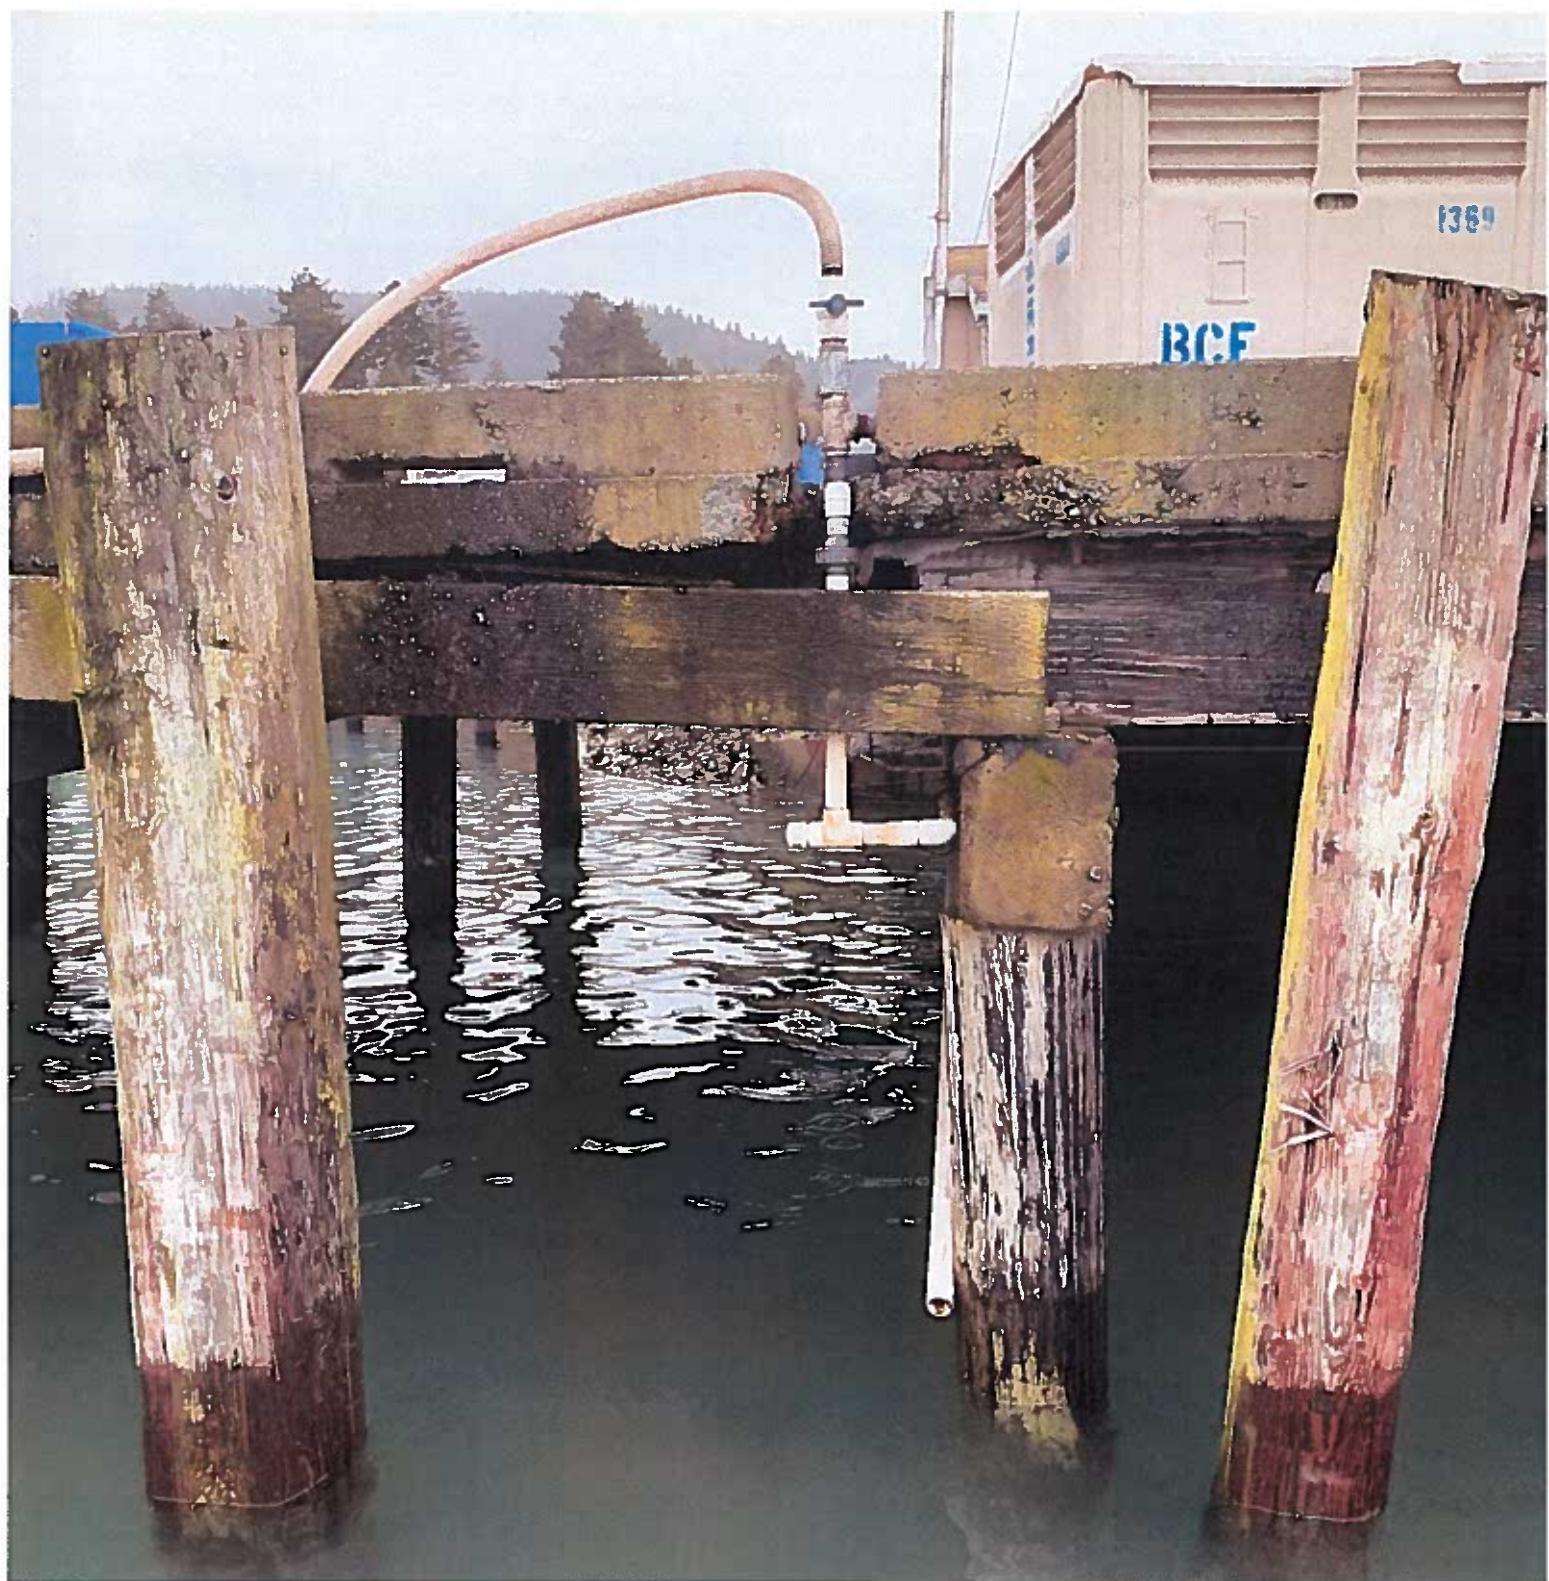

- 1) INFRA Grant
- 2) 2017 State Connect Oregon Lottery
- 3) Port General Fund
- 4) Business Oregon Loan - Special Public Works Fund or County Road Fund Loan

Temporary measures Port has taken to reduce environmental and safety issues:

- 1) None

75

PORT OF BROOKINGS HARBOR

ICE HOUSE DOCK REPAIRS

Issue #	CIP Rank	Description of Condition	Priority	Option 1	Estimated Cost	Option 2	Estimated Cost	Option 3	Estimated Cost	Funds Available Y/N
15	9	Commercial receiving docks broken (Ice House)	1	Replace fender piles and walkways. Repair slopes.	1,000,000	Install fender piles and repair catwalk	50,000			No
		Board meeting 02-26-2019 Decision								

Port Staff Recommendation:

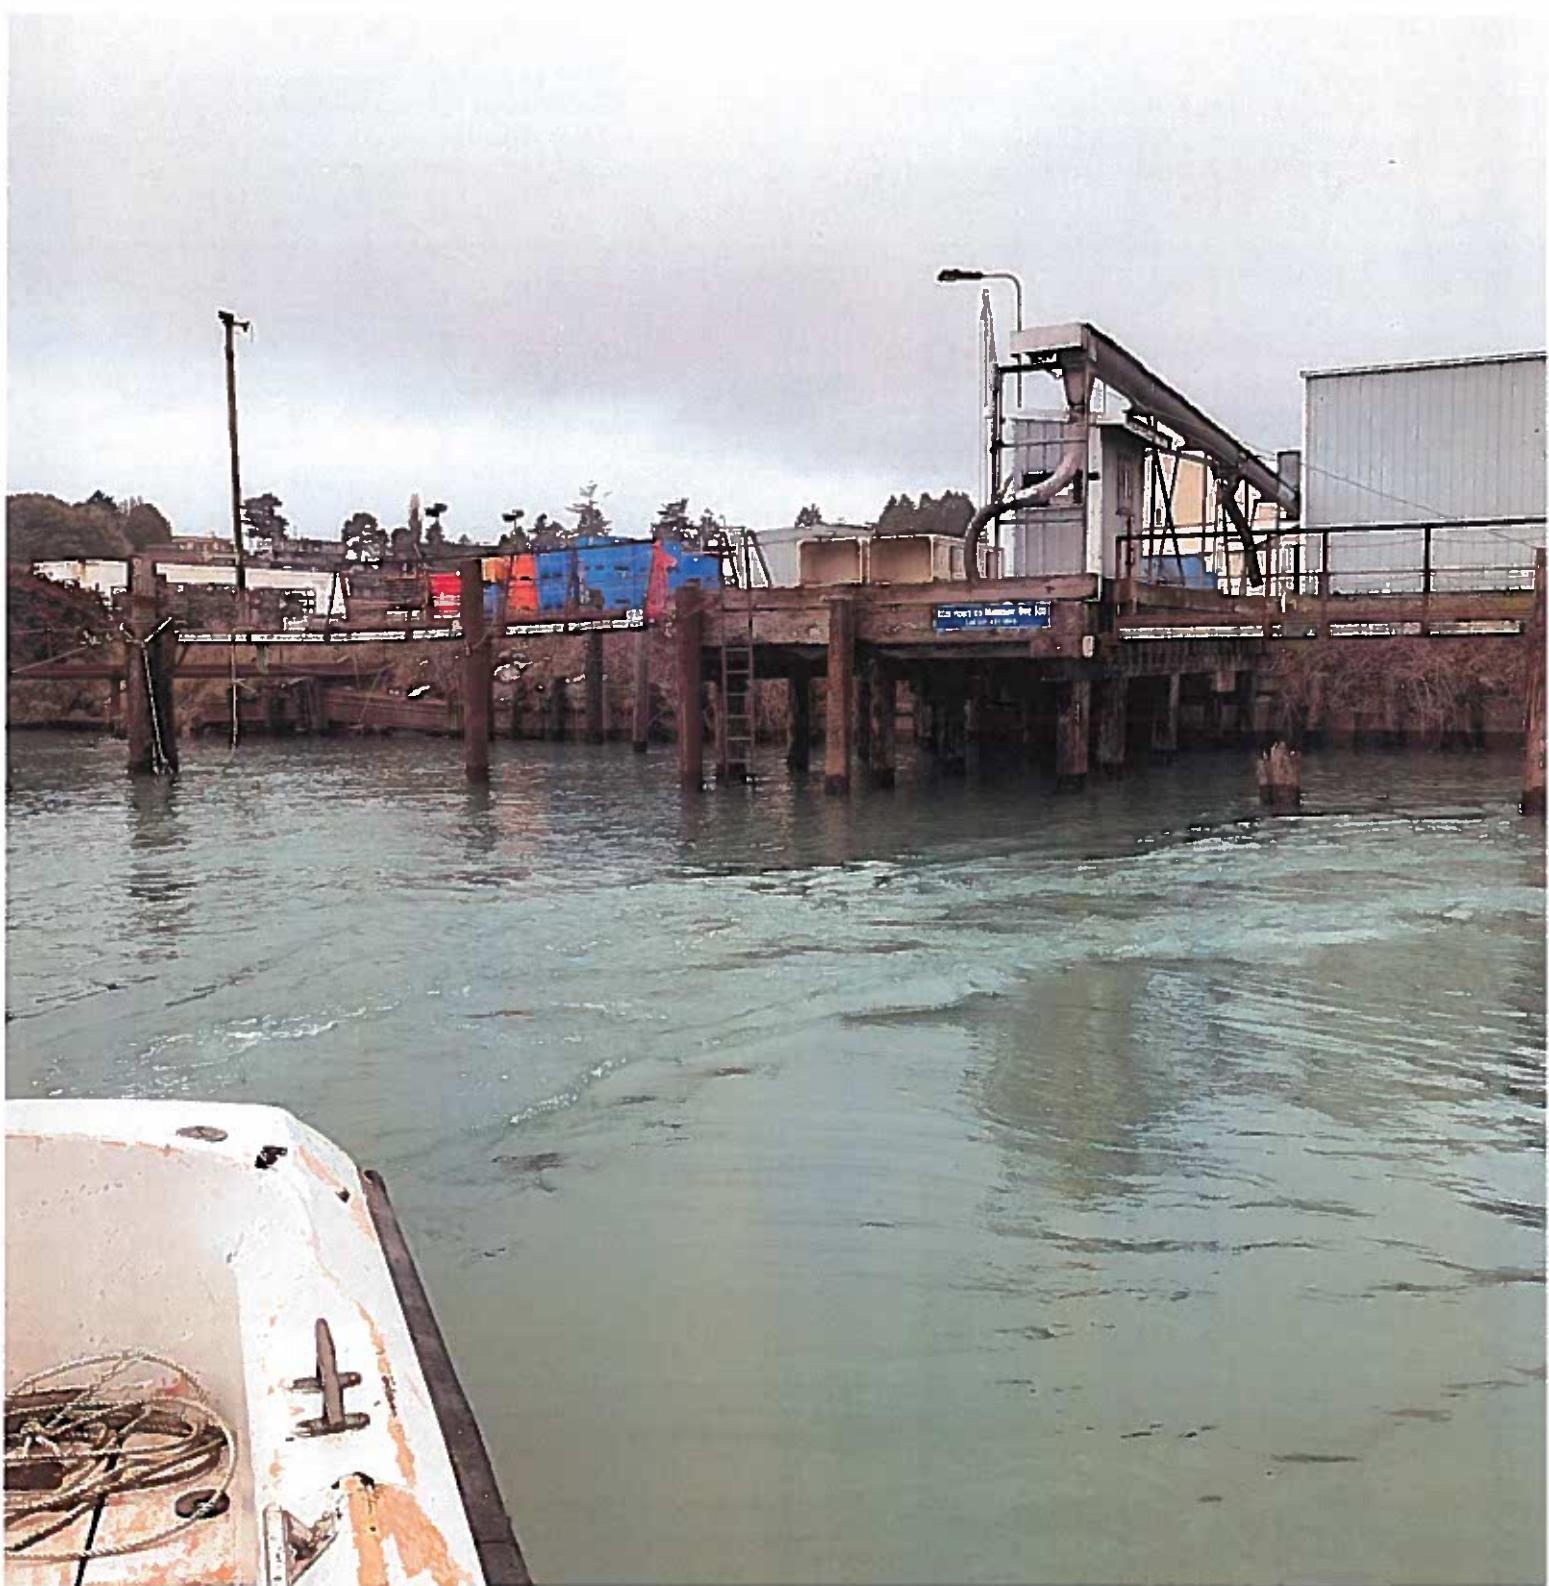

Option 2 at this time for cost savings if Ice House is relocated.

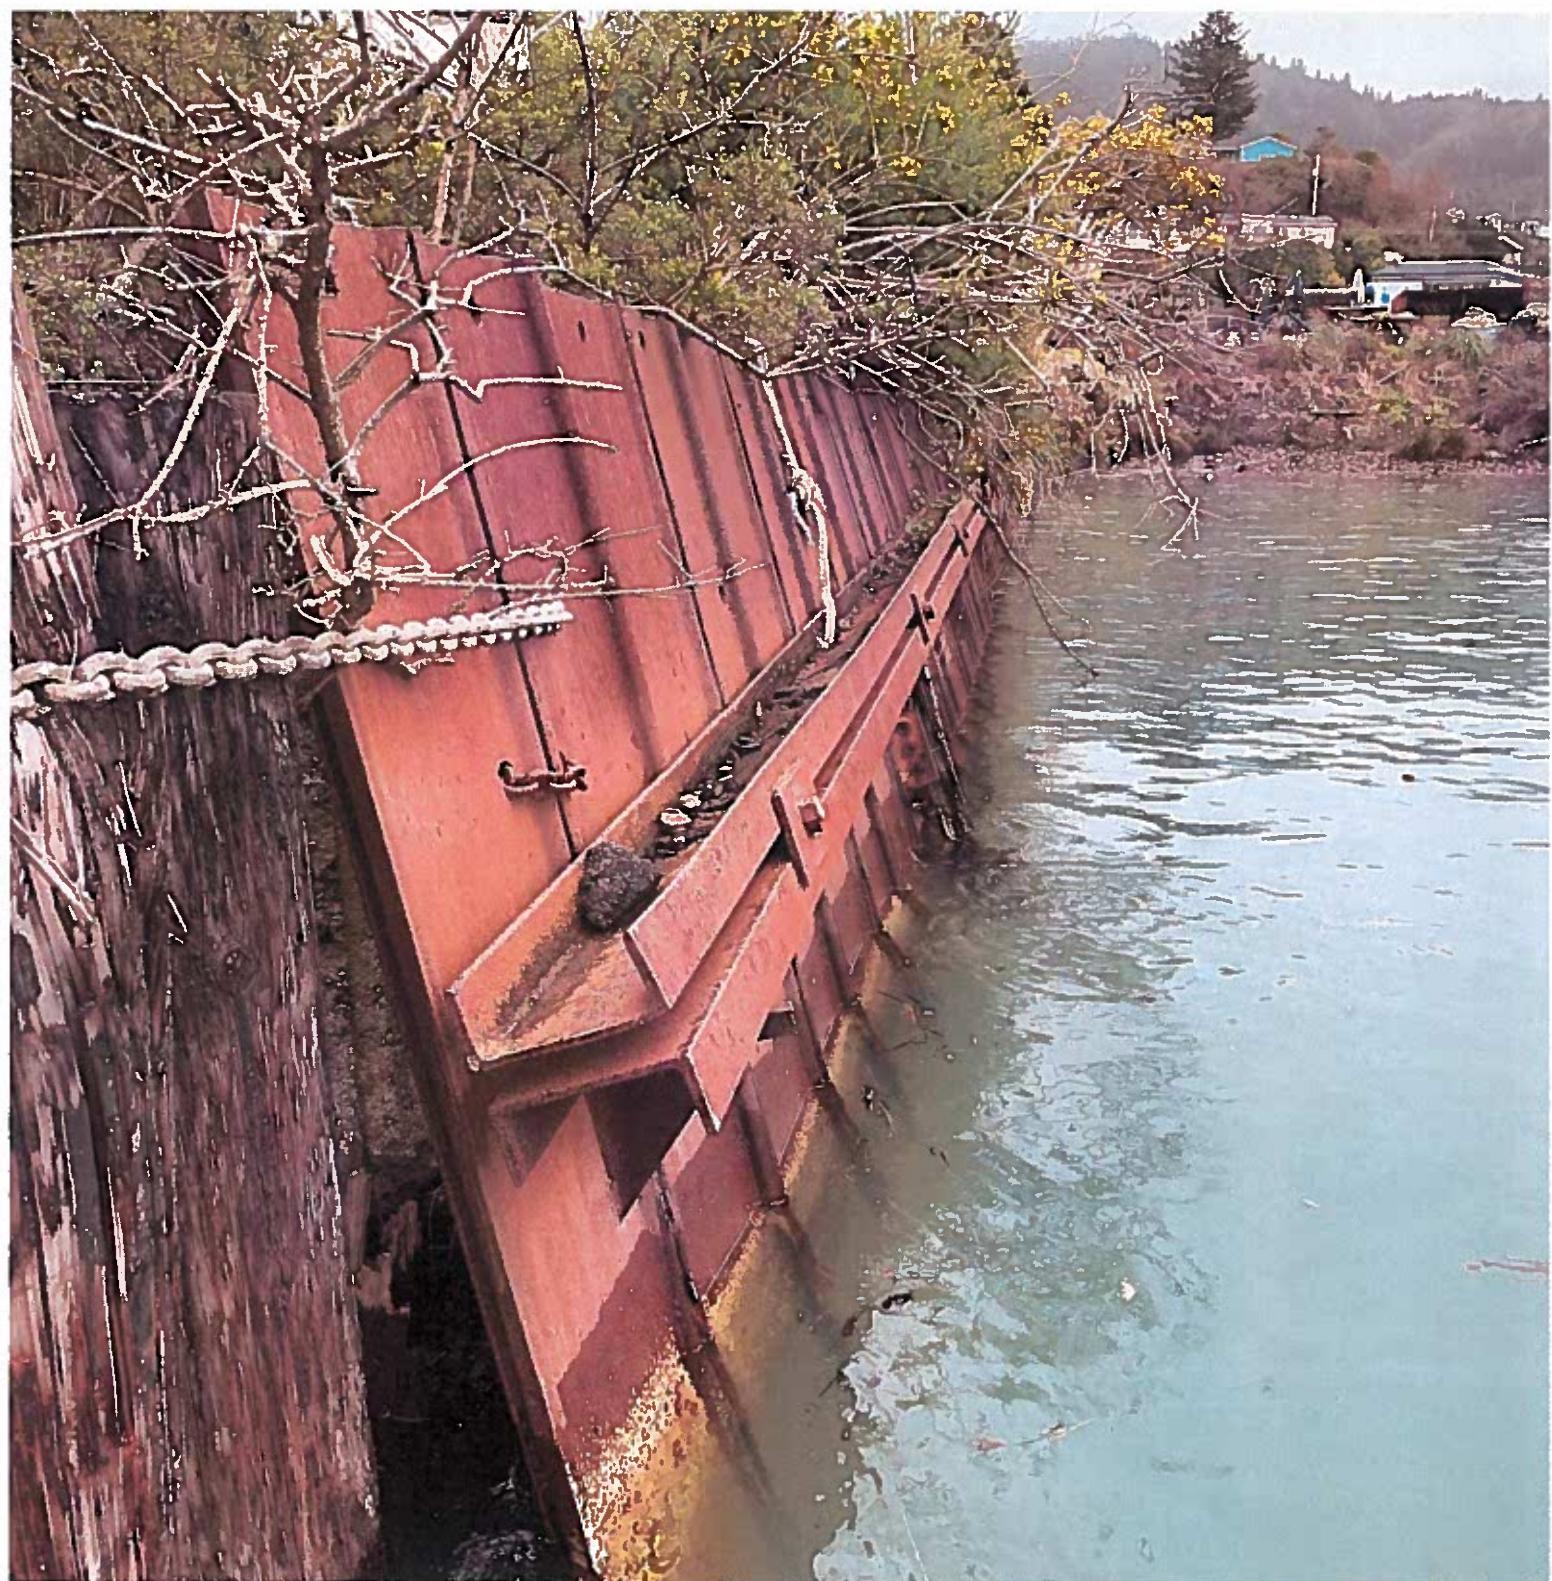

Option 1 or 2 Possible Funding Source:

- 1) INFRA Grant
- 2) 2017 State Connect Oregon Lottery
- 3) Port General Fund
- 4) Business Oregon Loan - Special Public Works Fund or County Road Fund Loan

Temporary measures Port has taken to reduce environmental and safety issues:

- 1) None

PORT OF BROOKINGS HARBOR

BOARDWALK SLOPE & SHORING FAILURE

Issue #	CIP Rank	Description of Condition	Priority	Option 1	Estimated Cost	Option 2	Estimated Cost	Option 3	Estimated Cost	Funds Available Y/N
22	15	North end of Boardwalk slope is failing and replace worn out deck boards	5	Replace damaged shoring, repair boardwalk with concrete deck	650,000	Replace all old shoring and build new boardwalk to match newer south end boardwalk	2,000,000	Stabilize failing slope per engineers direction	250,000	No
		Board meeting 02-26-2019 Decision								

Port Staff Recommendation:

Option 2 would provide the best natural disaster resiliency protection and normal longevity.

Option 1, 2 or 3 Possible Funding Source:

- 1) Port General Fund
- 2) Business Oregon Loan - Special Public Works Fund or County Road Fund Loan
- 3) State Lottery Fund 2021 (2023)

Temporary measures Port has taken to reduce environmental and safety issues:

- 1) 25 feet of north section of Boardwalk is closed for public use.

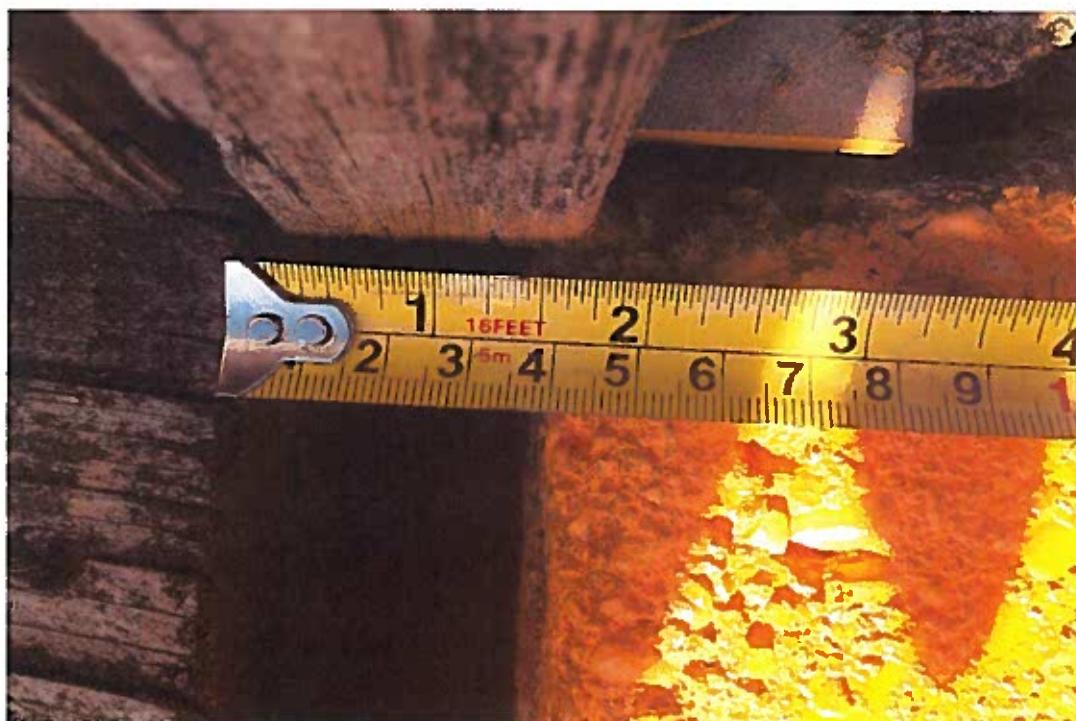

January 22, 2019

Boardwalk slope failure at north end.

January 27, 2017

PAVEMENT AND GRAVEL FAILURES

Issue #	CIP Rank	Description of Condition	Priority	Option 1	Estimated Cost	Option 2	Estimated Cost	Option 3	Estimated Cost	Funds Available Y/N
27	4, 6, 8 & 13	Roads within the Port failing causing potholes	3	Repair potholes, cracks and seal coat	150,000	Stormwater improvement s and paving	4,500,000	Seal coat and pave all storage areas	2,500,000	No
54	13	Pave Gear Storage and surrounding gravel roads within the port	3	Pave roads and storage areas to reduce staff maintenance costs and increase efficiency moving gear and reduce wear on equipment		Grade roads as necessary, per year cost	25,000			No
Board meeting 02-26-2019 Decision										

Port Staff Recommendation:

Option 2 would provide the best natural disaster resiliency protection and normal longevity.

Option 2 Possible Funding Source for Commercial Gear Storage and Interconnecting Roads:

- 1) INFRA Grant
- 2) Port General Fund
- 3) Business Oregon Loan - Special Public Works Fund or County Road Fund Loan

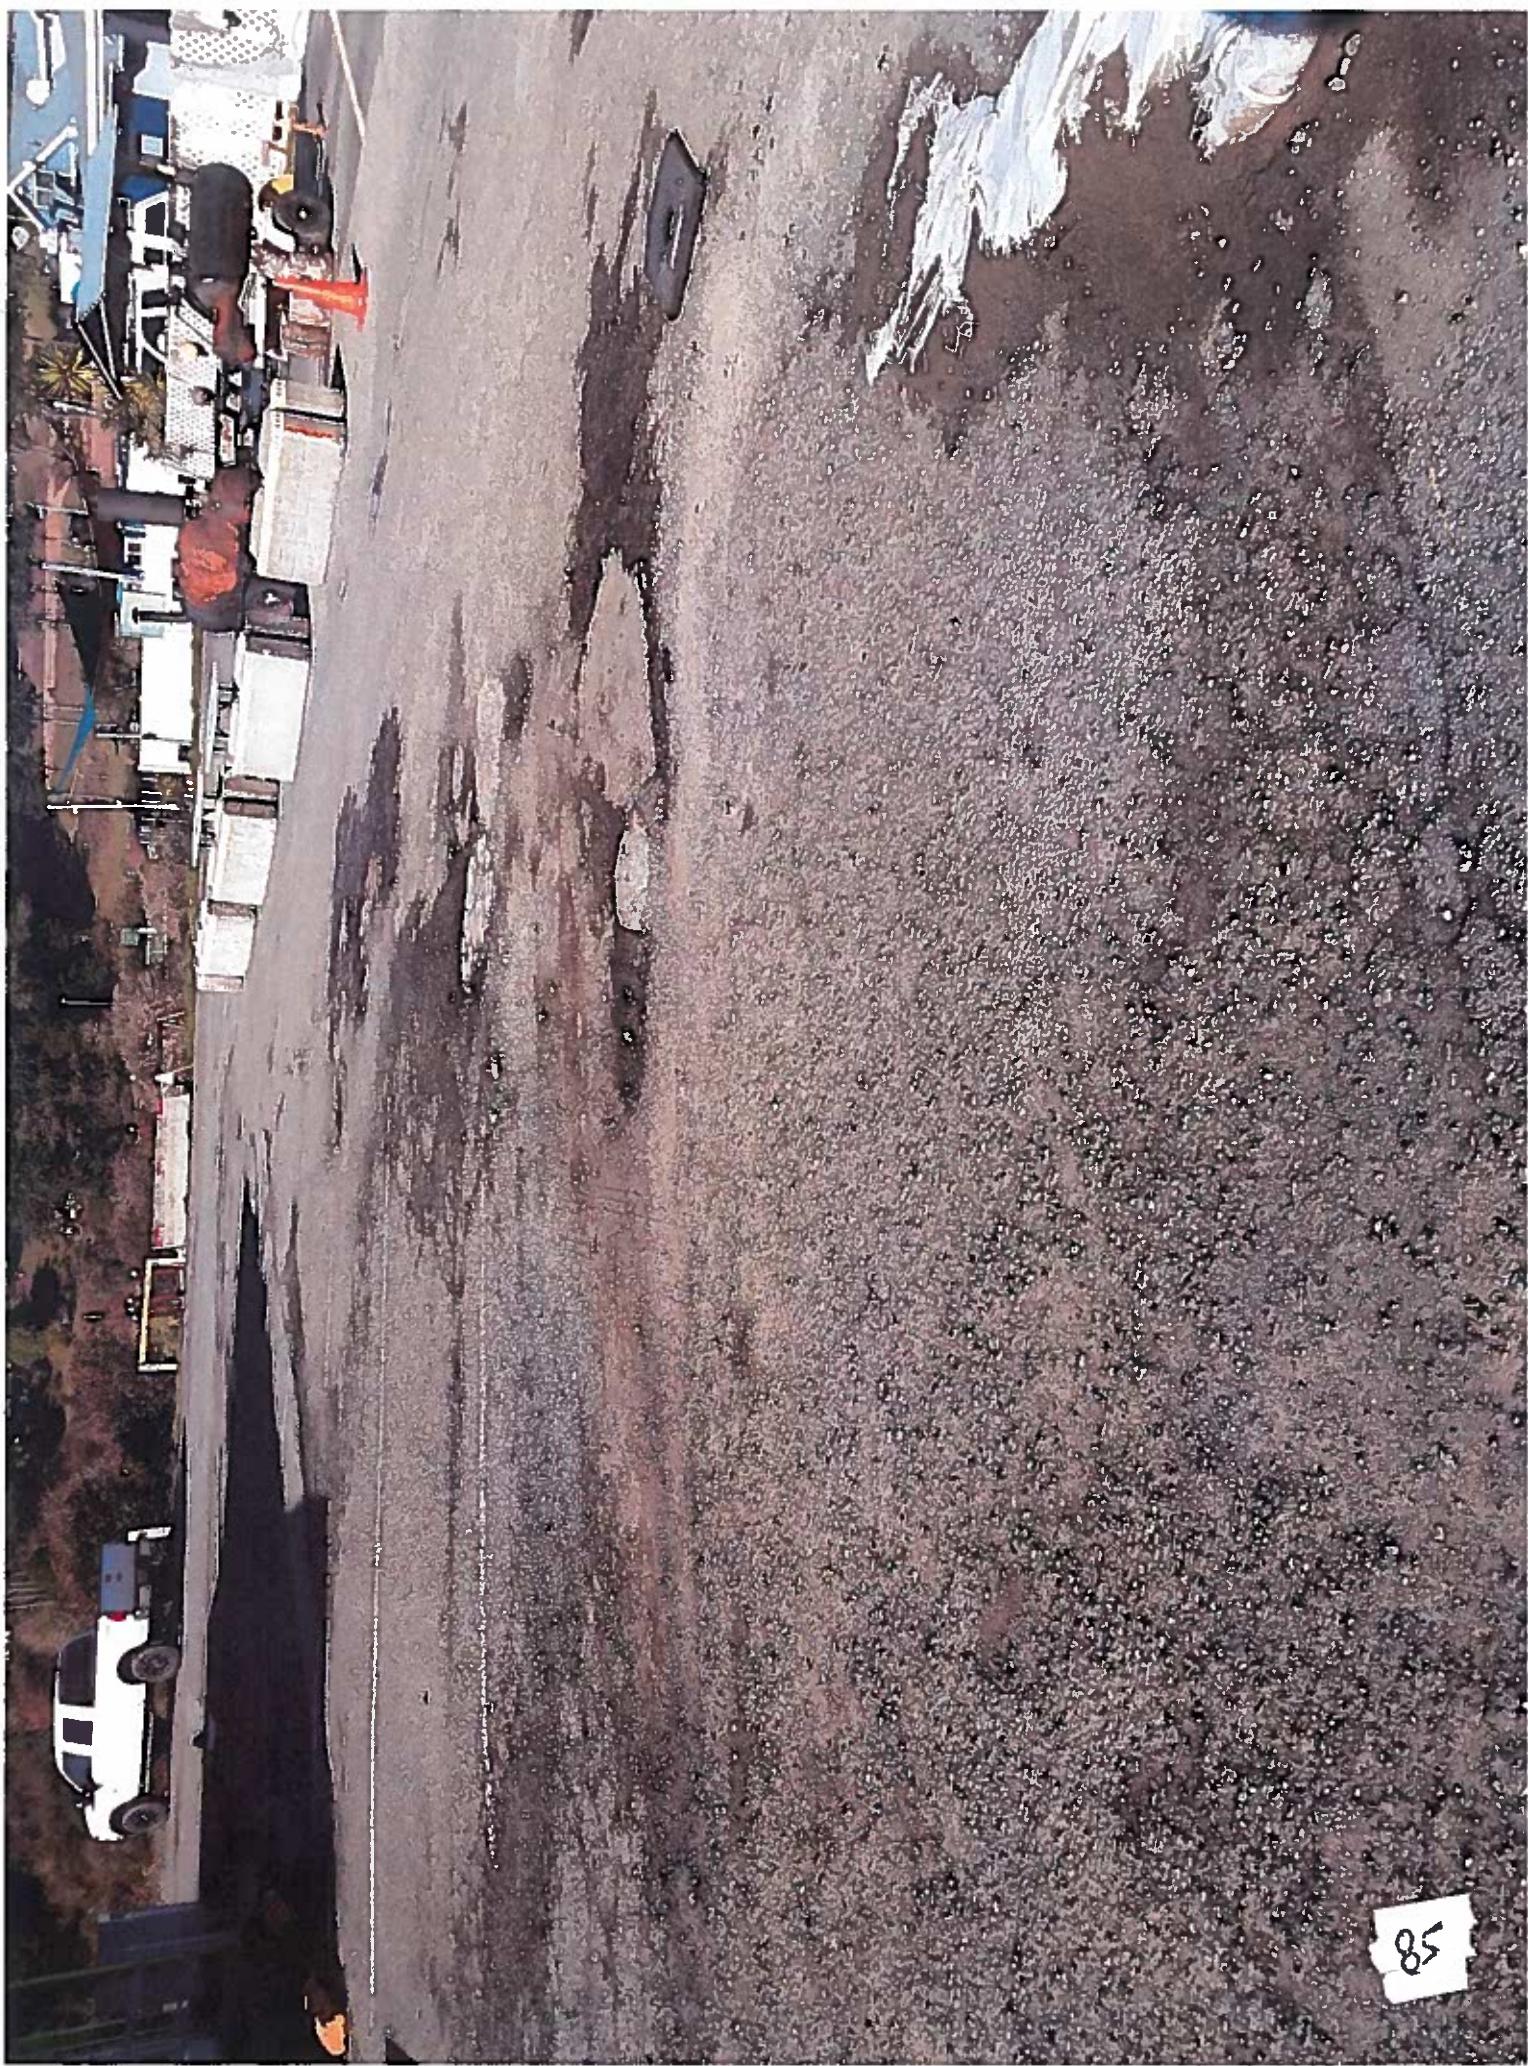

Option 1 or 3 Possible Funding Source:

- 1) Port General Fund
- 2) Business Oregon Loan - Special Public Works Fund or County Road Fund Loan
- 3) State Lottery Fund 2021 (2023)

Temporary measures Port has taken to reduce environmental and safety issues:

- 1) Gear storage roads graded routinely.
- 2) Potholes filled routinely.
